

BOWELS SLUGGISH, STOMACH SOUR, GASSY, UPSET? CASCARETS GREAT!

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means your stomach is full of sour bile—your liver is torpid—your bowels constipated. It isn't your stomach's fault—it isn't in-

digestion—it's biliousness and constipation. Try Cascarets; they immediately sweeten the stomach, remove the sour, undigested and fermenting food from the liver and carry off the constipated waste matter from the bowels. Your stomach trouble is ended. A Cascaret tonight straightens you out by morning.

BUILDING DONE IN FEBRUARY

Although the Honolulu building for last month, totals up to an annual rate of two million dollars, the greater portion of the construction has been of the cheapest class of dwellings—a fact that indicates growth of a sort that is not altogether pleasing. Permits for new construction in February amounted to \$165,463, and for repairs, etc., \$9021, a total of \$174,484. March so far does not give promise of increased activity, few permits of four figures each in cost having been issued. J. P. Mendonca is having a two-story concrete building erected at the corner of Hotel and Smith streets, of which H. L. Kerr is the architect and G. M. Yamada the builder. Permits for the latter part of February, following those for the former part already published, were as follows:

Chun Hee, dwelling, Kaimanulani lane; Yagata, builder; \$625.
Joquin Silva, dwelling, Kewalo; Nakatani, builder; \$600.
Alfred S. Rego, dwelling, Punch-bowl; A. Rocha, builder; \$900.
T. Shimada, restaurant, Wahiawa; T. Matsuno, builder; \$800.
Wasaburo Urasaka, photo gallery and dwelling, Wahiawa; Yasujiro Takenaka, builder; \$900.
mm City and County of Honolulu, fire station, Koko Head avenue; Ripley & Davis, architects; H. Fernandez, builder; \$2850.
Country Club, laundry and servants' quarters; T. Gill, architect; Wong Wong, builder; \$1100.
M. Nishihara, store; Kallhi road; Aloha Building Co., builder; \$1500.
W. A. Kelley, dwelling, Kallhi; Wong Sun, architect; Wing Tai & Co., builders; \$1500.
Chan Chong, two dwellings, Pua lane; Wong Sun, architect; Wing Tai & Co., builders; \$2500 and \$2700.
J. E. Rice, dwelling, Gulick avenue; Wong Sun, architect; Wing Tai & Co., builders; \$1345.

MAUI NOTES

[Special Star-Bulletin Correspondence]

WAILUKU, Mar. 3.—Sam Kellinot, for many years a resident of Maui, has sold out a prosperous poi business and moved to Honolulu, where he will reside in future. Mrs. Makekoa Sniffen of Wailuku has bought him out. She will carry on the trade he had formerly, which was extensive, for he supplied not only the Inter-island steamers but some ports on Hawaii, to which he shipped regularly.

Bishop N. Luccock, D. D., will be on Maui this coming week and will preach next Sunday morning in Kakaia. In the evening he will preach at the Wailuku Union church. In this church also on Tuesday evening he will lecture on "Twentieth Century Ideals." The lecture will be free to the people of Maui, and it is expected that a large number will come to hear the bishop, who is a well known public lecturer on the mainland.

Miss Lucy Addams' Washington Birthday party at Lahaina was very successful. For weeks the youngsters had been practicing for the affair. The many parents and friends who watched the performances were highly pleased with the efforts put forth by those in charge of the pleasant celebration.

There seems to be quite a little interest in Dr. Cook's appearance on Maui. He is to be here on Tuesday evening and it is expected there will be a large house to hear him defend his discovery of the North Pole. He will be at the Kahului Lyceum on Tuesday evening of this week.

BEST LINIMENT

For cuts and bruises there is nothing equal to Chamberlain's Pain Balm. It not only relieves pain almost instantly, but it is an antiseptic liniment and when applied promptly causes the wound to heal without any danger of blood poisoning. You can not afford to be without it in your home. For sale by all dealers. Benson, Smith & Co., Ltd., agents for Hawaii.

Women see through and through each other; and often we most admire her whom they most scorn. — Chas. Buxton.

FOUND

Fountain pen. Owner can have same by proving property and paying for this ad. 5487-3t.

MARCH 12 DATE TO THE MEMORY OF ALEXANDER FOR PUBLIC GATHERING

Setting upon the Gate for the big mass meeting which is to be held at Aala park, appointing committees, selecting speakers, and completing the final arrangements for putting their plans of centralizing the powers of the city of Honolulu before the people, a committee consisting of Mayor J. J. Fern, John C. Lane, D. Kaiaukalani, Lorrin Andrews, Ed. Towse, L. L. McCandless, Noah Aluli and George R. Carter, which was appointed by the Palama Improvement Club, met in the mayor's office at eight o'clock last evening, deciding to hold the meeting on the night of March 12.

Ex-Governor George R. Carter was elected last evening to preside at the mass meeting, while a committee consisting of Mr. Carter, Joan C. Lane and Mayor Fern, was selected to appoint the speakers for the evening. Lorrin Andrews as a committee of one, will handle the publicity end of the affair. The meeting will be held on the evening of March 12, commencing at seven o'clock, with the Hawaiian Band in attendance from seven until eight o'clock.

The idea of the conference will be for the purpose of completing plans whereby the legislature will be asked to give the people of the city and county of Honolulu the right to at any time elect a committee of freeholders for the purpose of drafting any new municipal act for the city. This board of freeholders will consist of fifteen persons, one from each outlying municipal district, and ten from the district of Honolulu. This body will draw up an enabling act for presentation to the legislature. The chairman of the meeting will select a committee to wait upon the legislature, present the enabling act and seek its passage. It is more or less an introduction to the city of the commission plan of government, which tends to centralize the powers of the city. This matter has long been agitated by the various improvement organizations, especially the Palama Improvement Club, which body appointed the committee which met last evening. Now that the plans have been completed by this committee, through the medium of the mass meeting, the plans will be presented to the public for its approval.

SOON TO TOUR THE PACIFIC

Taking advantage of the opportunity of touring the world at a cost under \$650 a party is said to soon reach the Pacific in the latest addition to the Canadian-Pacific fleet of steamers, the Empress of Russia. This palatial craft is rapidly nearing completion and will sail from Liverpool on April 1, coming to Vancouver via Suez, India and the Orient and arriving there on June 7. The fare for the trip round the world from Vancouver to London via Montreal, St. John, Boston or New York to London and Liverpool and back to this port on the Empress of Russia via the Suez and the Empress of Asia via Cape Town will be \$639.10, coming by either steamer.

BISHOP LUCCOCK VISITS ORIENTAL CHURCHES

During the past week Bishop Naphthali Luccock of the Methodist Church, who recently arrived in Honolulu from Helena, Montana, has been conducting interesting services in the various oriental churches of the city. The first of these series was held last Tuesday afternoon in the River street Japanese church, which was attended by more than seventy-five persons. Ordination services were held in the Korean compound last evening when, after a strong sermon by the bishop on "The Power of the Holy Spirit," Rev. U. S. Kim was ordained elder. For many years Mr. Kim was a preacher in Hawaii, and later became instructor in the Korean language at Mills School.

Tomorrow evening Bishop Luccock will preside at a meeting which is to be held at the Filipino mission on Queen street.

'DAGO RED' FIGHT HELPED BY WHOLESALERS

The fight against the so-called "dago red," which was started some months ago by the board of liquor license commissioners, has been resumed. The first step in the renewal of the war has been taken by the wholesale dealers of Oahu, who are customers of the Italian-Swiss Colony, and efforts will be made by those interested to place on the market a better grade of wine to take the place of the cheap liquor known as "dago red."

The dealers who are taking an active part in the fight have agreed to place on sale a stock of wines guaranteed to be three or more years old, and to stop entirely the traffic in raw wines. The charges that wine-drinking is the cause of the greater number of crimes of violence which have lately been reported, will probably disappear in the case the "dago red" is eliminated.

As previously fixed as a proper price by the board of license commissioners, the wine will sell at one dollar per gallon. Those who have entered into this agreement are Gon-salves & Co., Rosa & Co., T. Sumida & Co., S. Kimura, S. Ozaki, Kojima & Co., and the Waiwala Wine Company. Seeley Shaw, a retailer, has also entered into the agreement.

VEGETABLE AND FLOWER SEEDS

The commissioners of agriculture and forestry have received from the delegate at Washington a quantity of vegetable and flower seeds for free distribution through the public schools of the territory. There are 5000 packages of vegetable seeds. Half of that number contain the following seeds: Lettuce, muskmelon, onion, radish, tomato; and the other half contain corn, cucumber, lettuce, onion, radish.

Two hundred packages of flower seeds contain the following varieties: Candytuft, dianthus, nasturtium, poppy, cinna; and 200 packages contain calendula, candytuft, kochia, mignonette, poppy.

The superintendent of public instruction is preparing a list of schools to whom these seeds will be sent in the early part of March.

I read it in the Star-Bulletin. It must be so.

Doctors Use This for Eczema

Dr. Evans, Ex-Commissioner of Health, says: "There is almost no relation between skin diseases and the blood." The skin must be cured through the skin. The germs must be washed out, and so salves have long ago been found worthless. The most advanced physicians of this country are now agreed on this, and are prescribing a wash of wintergreen, thymol and other ingredients for eczema and all other skin diseases. This compound is known as D.D.D. Prescription for Eczema.

3500 COLLEGE MEN AS SCOUTMASTERS

NEW YORK. — More than one-half of the 7000 Scoutmasters and more than one-half of the 340 Scout Commissioners who are working for the physical, moral and mental development of the Boy Scouts of America are graduates of college. These facts are derived from a careful analysis of the Scoutmasters and Scout Commissioners registered with the Boy Scouts of America. They speak emphatically and show that the college men are more largely interested in altruistic work than other men. The proportion of college men interested in the work probably is still greater, for out of 5140 heard from 3271 are college graduates.

Those and other figures concerning the men who are interested in the Scout movement will be read next week by James E. West, Chief Scout Executive of the Boy Scouts of America, at the third annual meeting of the national council. Furthermore, business, professional and other men in the country are interested in scout activities.

Study of the 6917 Scoutmasters registered reveals the fact that men of many different nations are interested in the training of the boys, 4194 men put themselves down as Americans, 330 as Englishmen, Scotch, Irish, Canadians and Germans also are represented. There is 1 Hawaiian, 3 Indians, 14 negroes, 1 or 2 Mexicans and 1 Porto Rican.

A further analysis of the Scoutmasters shows that these men who find inspiration in taking boys on hikes and instilling them with the principles of the Scout movement come from almost every profession and line of work. There are 1972 preachers, 683 teachers, 390 secretaries, or for the colleges in the United States, employees of Y. M. C. A.'s. There are 183 lawyers, 146 doctors, and then, too, 633 mechanics and 269 students on the road. There are 1721 men at various lines of work and business.

It may be impossible to transform water into coal oil, but it is a well-known fact that there are stock manipulators who can transform water into money.

If a woman's credit is good at a department store she can depend upon to fill the bill.

A man seldom laughs at misfortune after he gets a personal introduction to it.

A REDUCTION UNDER A GUARANTEE

SPECIAL

For a short time only, Henry May & Co. will have for sale the well-known "Country Club" brand Red Alaska Salmon at the Special Price of 12 1-2 cents the can or \$1.40 the dozen. The usual price is 15 cents the can or \$1.65 the dozen. Every can carries two guarantees—the packers' and our own. The quickest way to order is via One-Two-Seven-One.
